- VI. Git
- VII. API
- VIII. Coding
- IX. Ruby
- X. PHP
- XI. PostgreSQL
- XII. SQL

Languages

- a. Kiswahili
- b. English

Summary

I am a **Full-stack** developer, currently I am efficient as a front-end developer with experience creating responsive, user-friendly web applications. My expertise includes **ReactJS**, **HTML**, **CSS**, and **JavaScript**, with a strong focus on delivering intuitive and visually appealing user interfaces. I've successfully led the design and implementation of dynamic UI's with frameworks such as **TailwindCss**, **BootstrapCss**, **Vite**, **Chakra UI** and also efficient without the use of frameworks, integrating seamless user experiences with **API-backed data**. Passionate about translating design into efficient code, I excel in fast-paced environments and love solving UI challenges.

I am also learning back-end technologies and I am making adjustments to my skills so as to make sure I am as good as I am on the front-end. I have knowledge on **Python** and **Python-flask** and I can create databases using **SQL** , **PostgreSQL**.
